Glossary of Swimming Terms

**Aerobic**
Longer distance energy system (see Energy).

**Aerobic Energy**
Aerobic means ‘with air’. The Aerobic system produces energy by the complete breakdown of glucose. The production of energy is slower, but more continual than the anaerobic systems. The aerobic system is the major energy provider for the 200m, and longer distance events.

**Age for competitors**
Generally age-determined events rely either on the age of the swimmer on the date of the competition, or on the age of the swimmer on 31st December in the year of the competition.

**Age Group**
Swimmer or competition for under 16s

**Amateur Swimming Association (ASA)**
The national body for swimming in England. There are separate ASA’s for Scotland and Wales and the Amateur Swimming Federation of Great Britain (ASFGB) incorporates the three country ASAs.

**Anaerobic Energy**
Anaerobic means ‘without air’.

**Anaerobic**
Sprint energy systems (see Energy). The anaerobic system is the major energy provider for 25m and 50m sprints.

**ASA National Rankings**
Every Licensed Meet that a swimmer attends in the swimming year will have sent its results to the ASA for ranking purposes. These rankings are either Long Course (50m pools) or Short Course (25m pools) and cover every event in every age group.

**ASA number**
A unique reference issued by the ASA

**Automatic Officiating Equipment (AOE)**
Equipment used to automatically record the times of the swimmers. It consists of a set of touch sensitive pads at the end of each lane linked to a computer. Places for each swimmer can be automatically calculated from the times and displayed on a scoreboard.

**British Age Group Points (BAG Points)**
The ASA's British Age Group (BAG) points system. This is based on a statistical analysis of lower age group times. It provides factors to correct for the differences in difficulty of the events within a given year of birth but not between years.

**BAGCAT scoring**
The BAGCATs stand for the British Age Group Categories, which introduce a points system to measure and compare swimmers' performance. The latest thinking is that swimmers at an early stage of their development should compete to win an overall category award rather than specialising in a particular event. The BAGCATs therefore define four different categories, sprint, form, distance and medley. The BAG Points are calculated from a set of age-related tables for each of the above categories as follows:

- Sprint - best 50m/100m sprint performance (any stroke)
- Form - best form stroke performance (i.e. form strokes are those with a defined form according to ASA Law) thus best performance at 200m back, breast or butterfly)
- Distance - best performance at 200m, 400m or 1500m Freestyle)
- Medley - best performance at 100m, 200m or 400 Individual Medley)
To work out the BAGCAT points for an individual swimmer, you must complete at least one swim from each of the categories and the points for the best performance in each are totalled to give a single score.

**Boxes**
At opens and County championships the place where entry cards must be handed in before the start of the warm-up.

**Cards**
Entry cards. At opens and County championships a card is sent to each competitor for each event entered. This shows the entry time, the start time of the gala and competitor number. These cards must be checked when they arrive, taken to the gala and handed in before the start of the warm-up.

**Catch-up**
A front-crawl drill.

**Competitive Progression of Swimmers**

**County Championships & Development Meets**
Sutton & Cheam SC is affiliated to the Surrey County ASA, who hold County Championships Competitions and a Development Meet each year.

Qualifying times are published for these competitions – swimmers must have swum faster than these times to enter.

The Bagcats, Youth, Team & Distance events are held over several weekends between February & April. All swimmers who achieve the qualifying times are encouraged to take part. The club also enters relay teams. The age groups for this competition are single years from 9 to 16 plus 17 & over, usually based on the final day of competition.

In addition to the Championship Event, Surrey County ASA also runs a Development Meets for those who didn’t make the qualifying time for the Championship events.

**Designated gala**
A gala designated by the ASA for national and district qualifying times.

**DNC**
Did not compete.

**DNF**
Did not finish.

**DQ**
Disqualified – swimmers may be disqualified for several reasons e.g. false start, incorrect stroke, incorrect turn.

**Drag Pants**
These are used by swimmers to warm-up in competitions before racing to increase their feel for water and add to confidence before racing.

**Drink Bottle**
Use to keep hydrated in training and competition. Hydration has everything to do with performance and drink should be water based with a little fruit juice.
Glossary of Swimming Terms

Energy
The cardio-vascular system provides energy. The body has three complementary energy systems though as far as swimming is concerned, only two are relevant.

The anaerobic system provides energy instantly and does not use oxygen, but will only produce energy for up to about a minute. The anaerobic system is the major energy provider for 25m and 50m sprints.

The aerobic system needs a constant supply of oxygen. It is a slower and more economical system of energy production. The aerobic system is the major energy provider for the 200m, and longer distance events.

Entry time
The time on the entry form, the best time achieved within a given period of the closing date for entries.

False Start- One start rule
ASA Law (SW4.4) defines a false start as “Any swimmer starting before the starting signal has been given, shall be disqualified”.

If a swimmer starts before the gun/whistle/beeper sounds, he or she is disqualified. This means that if they get it wrong on the first start they are disqualified; there is no second chance.

Fins
Short-blade flippers worn on the feet and used for stroke technique and speed assisted training.

Fixture List
Fixtures in the swimming year (September – July) are aimed at best possible dates for achieving qualifying times for competitions, and will also include any other Open Meets or Leagues such as the Arena League, as well as Club Championships.

Flags (Backstroke Turns)
These are suspended five metres from either end of the pool to indicate to the swimmer that the end of the pool is near. With practice, the swimmer will be able to work out how many more strokes are required and so eliminate the need to turn around to look.

Form stroke (see BAGCATS)
Backstroke, breaststroke and butterfly.

Freestyle
In practice freestyle races are always swum as front crawl as this is the fastest stroke, however technically it means any stroke which is not a form stroke.

Hand Paddle
A device used during training which fits over the hands to provide a greater surface area. Generally used by A Squad Swimmers only.

Heat
When there are too many swimmers in an event for them all to compete in one race, that event is divided into heats or qualifying races and then the fastest swimmers go forward to the final.

Heat declared winner (HDW)
Only heats are swum, not heats and finals. Several events are swum together, usually different ages of the same stroke and distance. Swimmers are graded by entry time. The winner is the swimmer in the relevant category, usually age, with the fastest time, not the winner of a particular heat.

Once all the heats have been completed, the placings for each age group are calculated from the times recorded. Thus it is possible for the 1st, 2nd and 3rd places for an age group to go to swimmers...
who competed in different heats and for a swimmer who placed 6th in his heat to be 1st overall in his age group.

Heat Declared events are extremely difficult for spectators wanting to know the results because you have to identify all the swimmers in a particular age group and note all their times before you know how well your swimmer has done.

**Individual Medley IM)**
A race in which all 4 strokes are combined in the order - Fly, Back, Breast, Freestyle. [When swum in a relay, the order is Back, Breast, Fly, Free - so as to avoid a takeover to backstroke.]

**Internal Competitions**
The Club hold a number of internal competitions each year which are an ideal introduction to competitive swimming.

Splash' Gala – is an opportunity for the members of the lower squads to swim 25m/50m times. We use these galas to identify and fast track talent to the competitive squads

Club Championships - The Club Championships are open to all Club members covering distances from 25m to 1500m depending on age with Age Group Medals and Trophies. Additional awards are presented for best performances. They are usually held as a series of galas each year in the Autumn. They demonstrate how well you are progressing. Ages are as at 31st December in the year for these competitions.

**Judges**
There are three types of judges in a competition. Stroke judges ensure that each swimmer uses the correct stroke for each race. Turning judges observe all turns and relay take-overs. Placing judges decide the order of finishing and act as turning judges at the finishing end. Judges have the power to disqualify swimmers who infringe the ASA Laws and Technical Rules.

**Kick**
A legs-only set.

**Kick Board**
A foam board used during training to support the upper body for some legs only drills. Sometimes called a float.

**Long Course**
Races swum in a 50m pool – times are usually slower than those achieved in a 25m pool for the same event distance.

**Manual Time**
The time for a swim recorded manually by a timekeeper using a stopwatch.

**Masters**
Swimmers 25 or over.

**Medley relay**
A relay of four swimmers where each swimmer swims a different stroke in the order - Back, Breast, Fly, Freestyle.

**National Arena League**
National league which takes place over 3 rounds in October, November and December each year.

**National Qualifying Time (NQT)**
These are those times that a swimmer must achieve in order to be allowed to enter the Nationals. NQTs must be obtained at ASA designated meets.
Glossary of Swimming Terms

Off X seconds/ minutes
The interval between the start of one set and the next. Any spare time is rest.

Official Time
The time officially recorded for a swimmer after comparing it with the placings. This will usually be the same as the accepted time, except in the case where the placings do not agree with the times, in which case two or more times will be adjusted, resulting in the same official time for the swimmers even though they have different places.

Open event
A race in which swimmers of any age may compete.

Open Meet
Competitions which are open to swimmers of any club that is affiliated to the ASA.

Over the top start
Swimmers from the last race remain in the water until the next race has started.

Pace Clock
A large clock on the wall of the swimming pool with a single hand used during training to give the swimmers a start time for a drill, time rest periods and to time a swim.

Personal Best (PB)
Personal Best, the best time swum by that person over that distance for that stroke.

Pool Floor Markings
The black lines painted on the pool floor indicate the centre of a lane. The ‘T’ at the end of the black line indicates two metres from the end of the pool. Both assist the swimmer in gauging when to start a tumble turn in Front Crawl, or when to spot the turn or finish in Breaststroke & Butterfly.

Pull
An arms only set.

Pull-buoy
The keyhole shaped float that keeps your left afloat in an arms only drill.

Qualifying Time
A time required by some competition organisers in order to enter an event.

Racing Suit
Is required for competitions and is considered fundamental to a best competitive performance. This suit is usually 1 or 2 sizes smaller than the practice suit to reduce resistance when racing.

Rankings
Lists of the top 50 swimmers in each age/gender from 10 years (see age) upwards.

Red
When the red hand of the timing clock is pointing to the 12 o'clock position. "Red 15" is when it is pointing 3 o'clock and so on.

Referee
The referee has overall control or a competition, ensuring that the rules are obeyed, inspecting the course and adjudicating in any disagreements between officials and competitors.

Region
The level of competition between County and National.
Regional Championships
The next level of competition between County and National Championships. Sutton & Cheam SC is part of the London Region and swimmers will compete against clubs from all over London.

Relay Race
Relays involve swimming an event as a team of two (usually four) or more swimmers. In relays all swimmers use the same stroke or in the case of a medley relay, each swimmer swims a different stroke in the following order: backstroke, breaststroke, butterfly, freestyle.

Rest Interval/RI
Rest period at the end of a set.

Surrey County ASA
Surrey County ASA incorporating SCWP&SA.

SCWP&SA
Surrey County Water Polo and Swimming Association, to which Sutton & Cheam is affiliated.

Seeding
The method of arranging swimmers who have entered in an event according to their submitted time. Some organisers swim the fastest swimmers first and then work through to the slower submitted entry times. However most competitions are swum starting with the slowest entries and working up to the faster entries. The final heat is often swum in "spearhead" formation, with the fastest swimmers occupying the middle lanes.

Senior
Swimmer aged 17 years and over (25+ year olds are also Masters).

Session
A training period, usually 90 minutes.

Set
A series of training routines.

Short Course
Races swum in a 25m pool. Because there are more turns, times are usually faster than those achieved in long course events for the same event distance.

Spearhead
The lane order for finals is decided from times in the heats or semi-finals. The fastest qualifier will swim in lane 4, second fastest in lane 5, third in lane 3, fourth in lane 6, fifth in lane 2, sixth in lane 7, seventh in lane 1 and eighth in lane 8. Theoretically, this creates spearhead format in the race.

Speeding Ticket
Swimmers who exceed the fastest permissible time for an event are given a speeding ticket. This means that their time stands but not the place. This usually happens when an A grade swimmer has been selected for a B or C grade gala.

Splits
The time at each 25/50m turn. Swimmers will monitor these to check how they paced a race.

Squadron
A freestyle relay of usually 10 swimmers in each team, arranged boy/girl in each age group, oldest last.

Streamlining
Reducing the cross sectional area of the body to the minimum to make faster progress through the water as a result of less drag.
Glossary of Swimming Terms

**Surreys**
The County level competition in which Sutton & Cheam Swimming Club competes.

**Swim Hat**
Latex or Silicone hats are used during a race and / or training, to cut down resistance. The club hats must be worn in all club competition when representing the club.

**Swim down**
A gentle set to relax the muscles after training or competition to reduce lactate build up.

**Taper**
Period of less intense training in the run up to a major event.

**Timekeeper**
Timekeepers record the time for competitors swimming in their lane. The chief timekeeper collects the times from the timekeepers and reviews them with the referee.

**Time Trial**
A swimmer taking part in a race to achieve a time without recording a place. Used to give the swimmer experience when there is a spare lane.

**Training Suit**
These are suits worn by swimmers during training sessions and warm-up for swim meet, some older swimmers train wearing 2 suits for the purpose of creating drag.

**U12, U14 U16**
Most League and team galas are run for swimmers of different age groups such as Under 12, Under 14, Under 16 and Open though some galas refer to 11/U (11& Under), 13/U (13&Under) 15/U (15&Under) and Open. Both mean the same thing.

**Warm up**
A gentle set at the beginning of a session or gala to acclimatise the muscles for what is to come.

**Year**
Age-determined events are categorised by the age a swimmer either on 31 December of the year of the competition or on the date of the competition.
